High Brown Fritillary Butterfly

## Wildlife to watch for

Watch for salmon leaping through the white water as they make their way upriver each autumn to spawn. The sunny slopes of the reserve below Aish Tor give you a chance to see high brown fritillaries, one of the UK's rarest butterflies.

**Walking at Dart Valley:**  
The middle sections of the nature reserve contain steep sections. Paths are indistinct and rough. Care needs to be taken.

**About us**  
We are a charity and rely on your support – through membership, donations and gifts in Wills – to care for places like this.

**Want to find out more?**

**How to get to Dart Valley nature reserve**  
The reserve's main entrance point is at New Bridge. Exit A38 following signs to Dart Valley Country Park. Continue past the Park, via Holne Bridge to New Bridge. The car park is immediate left after the bridge (map ref SX 710 708). A track from the car park leads into the reserve.
