HAZARD	WHO MAY BE HARMED AND HOW?	WHAT ARE WE ALREADY DOING TO CONTROL RISK OR REDUCE IT TO AN ACCEPTABLE LEVEL?	RESIDUAL RISK				
			L	S	R		
<u>Potential for Covid-19 transmission through contact with contaminated equipment</u>	volunteers, public	<p>Instructions during detector handover:</p> <ol style="list-style-type: none">1. During detector handover, each party will maintain social distancing at all times.2. To minimise contact time, staff at Monitoring Centres are not expected to answer questions in relation to the survey – all questions can be answered by a member of the Bat Team by phone during working hours Monday-Friday (contact details are provided on the instruction manual in the box).3. Centres may sign in/out on behalf of borrowers to minimise contact <p>Instructions for survey participants:</p> <ol style="list-style-type: none">1. Do not attempt to collect the detector if you experience symptoms of Covid-19 – contact the Devon Bat Survey Team to rebook your survey.2. Once the detector carry box, detector or anything else within the carry box is touched, avoid contact with your face, personal items or surfaces, until you have thoroughly washed your hands. You must thoroughly wash your hands for at least 20 seconds using soap and hot water, or a hand sanitizer with at least 60% alcohol content to kill viruses. A bottle of anti-viral/bacterial hand sanitiser will be provided within the detector carry box.3. A notice will be attached to each box reminding about handwashing.4. If you or anyone within your household experience symptoms of Covid-19 while using the detector, please notify the Devon Bat Survey Team and do not attempt to return the detector unless you have received a negative test result. If you or anyone within your household test positive for Covid-19 whilst borrowing the detector you must isolate and let the Devon Bat Survey Team know as soon as possible so that we can reschedule the detector return.	3	4	12		

<u>Uneven Ground</u> slips, trips, falls	volunteers, public	<ol style="list-style-type: none"> 1. Take care – allow enough time for activity. 2. Be aware of any obstructions in your path. 3. Wear appropriate footwear. 4. Avoid traversing ground you aren't comfortable with. 	3	2	6
<u>Parking and walking on roads</u> Road traffic accident	volunteers, public, other road users	<ol style="list-style-type: none"> 1. Be vigilant if parking on or close to roads – adhere to the highway code and do not block field entrances or create a driving hazard for other road users 2. Do not walk along busy main roads. 3. Follow Highway Code where walking on minor roads. 4. Ensure you are in control of your actions and aware of surroundings while on roads (e.g. no alcohol, bags easy to carry). 5. Ensure you are highly visible to traffic (e.g. high visibility clothing). 	1	5	5
<u>livestock</u>	volunteers	<ol style="list-style-type: none"> 1. Check for livestock in fields before entering. 2. Always check with land owners about possible aggressive animals in fields and avoid if necessary 3. Don't enter a field if you feel uncomfortable with livestock present. 4. Avoid getting between a cow and a calf. 5. Don't enter a field with livestock with a dog. 6. Do not set up detector in a field containing livestock 	1	5	5
<u>Climbing gates, fencing</u>	volunteers	<ol style="list-style-type: none"> 1. Open gates rather than climbing where possible. 2. Be aware of electric fencing and barbed wire when placing detector. 	2	2	4
<u>Lone working if away from your own home</u>	volunteers	<ol style="list-style-type: none"> 1. We strongly recommend that volunteers do not work alone 2. If having to work alone volunteers should ensure: <ol style="list-style-type: none"> a. A fully-charged mobile phone (turned on) is carried at all times b. You must notify someone of what you are doing, exactly where you are surveying, where you plan to park, what your start and end time should be, method of travel to and around the site, proposed itinerary, vehicle identification details and how you will let them know of your safe return and at what time. In the event of your not returning within an hour of your stated return time this person should 	1	5	5

<u>Aggressive individuals</u> <u>Bites and stings</u> Anaphylactic shock, skin irritation <u>Mines, caves, shafts, adits, sinkholes, steep slopes, etc</u> falls, trapping		try to contact you and if no success contact emergency services with your survey location details 3. Extra care must be taken during activity.			
	volunteers	1. Be aware of members of public who may appear to show early signs of aggression or antagonism. 2. Engage with them where appropriate and explain what is happening, answer questions politely. 3. If any signs of aggression, placate if possible otherwise move away 4. Avoid being alone with aggressive individuals, stay with other volunteers if possible 5. If signs of intoxication (drugs, alcohol) are evident, move away and abandon activity immediately 6. If weapons (knives, firearms, air rifles, etc) are evident, move away and abandon activity immediately 7. If intimidation, antagonism or aggression becomes threatening call 999 police as soon as possible after moving away to safe distance	1	5	5
	volunteers	1. Be sure to wear appropriate clothing to protect from bites/stings. 2. Be aware of plants that might cause skin irritation (i.e. stinging nettles and hogweed) and biting/stinging animals and insects (i.e. adders, horseflies, bees, wasps, hornets). 3. Always carry appropriate medication if you suffer from anaphylaxis 4. Follow guidance under lone working to ensure someone knows your location	1	5	5
	volunteers, public	1. Avoid locations that pose a risk to you - where this appears impossible abandon activity 2. Avoid access routes that pose a risk to you – where this appears impossible abandon activity 3. Stay within your own limits – don't do it if you feel uncomfortable 4. Wear suitable footwear	1	5	5

<u>Water</u> Weil's disease, drowning. <u>Adverse weather</u> conditions/ exposure	volunteers	1. Observe basic hygiene when working near water – wear appropriate clothing, cover all cuts with watertight dressing and wash hands before eating, drinking or smoking 2. If working alongside a river, always work in pairs and not alone.	1	5	5
	volunteers	1. Dress appropriately for conditions (e.g. sun hats, sunscreen, warm / waterproof clothing) and postpone/ abandon if severe weather sets in	1	4	4

KEY			
LIKELIHOOD		SEVERITY	
1	Extremely Unlikely	1	Very Minor Injury
2	Unlikely	2	First Aid Injury
3	Possible	3	Lost Time Injury
4	Likely	4	Hospital Treatment
5	Very Probable	5	Disabling Injury

LIKELIHOOD X SEVERITY = RISK RATING

MEANING OF RISK RATING	
RISK RATING	ACTIONS
4 OR BELOW	Acceptable.
5 - 8	Tolerable.
9 - 14	Tolerable. Additional controls must be introduced as soon as possible
15 and over	Unacceptable. Activity must not proceed and additional controls must be introduced to lower the risk to below 9
